

**Proceedings of Healthy Buildings 2009
PROGRAM ADDENDUM**

Change in presenter

#	New Presenter (underlined)	Session
97	Removal of ultrafine particles by ventilation air filters <i>Lars E. Ekberg and <u>Bingbing Shi</u></i>	P1-10B Podium
596	Drug-resistant bacteria in hospital wards – the role of ventilation <i>Sture Holmberg, Sven Alenius and Shih-Ying Chen (<u>Magnus Mattson</u>)</i>	P2-15A Poster
103	Measurements of perceived air quality: Correlations between odor intensity, acceptability and characteristics of air <i>Pawel Wargocki, <u>Henrik N. Knudsen</u>, Artur Rabstajn and Alireza Afshari</i>	P3-15D Podium

The following paper has been moved

#	Paper	From	To
782	Characteristics of experience pavilion for aging-friendly house planning in Japan <i>Miseon Jang, Euisun Lim and Yeunsook Lee</i>	P4-10D	P1-13D Poster

Paper added to the program

#	Paper	Session
787	Design features of YBG District in the perspective of holistic health <i><u>Hyegyung Yoon</u>, Yeunsook Lee, EunJung Jung</i>	P1-13D Poster

These papers will not be presented at the Conference due to scheduling conflicts or to the author's inability to attend

#	Paper	Session
464	Characterization of asbestos fibers released from building insulating materials into the air <i><u>Rafal L. Gorny</u></i>	P1-10A Poster
197	The analysis on underground space micro-climate environment factors and their influence <i><u>Yanqiang Di</u>, Yu Zhao and Tao Meng</i>	P1-10E Poster
373	Natural ventilation inside a room model with openings on two adjacent walls <i><u>N. M. Guirguis</u></i>	P1-13B Podium
276	Evaluation of the indoor air quality criteria in life cycle assessment models <i><u>Gökçe Tuna Taygun</u> and S. Müjdem Vural</i>	P1-13D Poster
569	An information system of indoor air pollution forecast and evaluation based on database of pollution emitting characteristics <i><u>Li Yun Gu</u> and Tianfu Deng</i>	P2-10C Podium
443	Eco-laboratory – pushing boundaries <i><u>Dan Albert</u> and Myer Harrell</i>	P2-10C Poster
20	Case studies in Greece <i><u>S. Chadiarakou</u>, G. Guarracino and M. Santamouris</i>	P2-13A Poster
534	Automatic assignment of solutions to written indoor air quality complaints <i><u>Zoulikha Bellia Heddadji</u>, Séverine Kirchner, Nicole Vincent and Georges Stamon</i>	P3-10C Poster
595	Evaluation of the indoor environmental quality in Portuguese classrooms <i><u>Ricardo Almeida</u> and Vasco P. de Freitas</i>	P3-10D Podium
833	MIT Enernet: Correlating WiFi activity to human occupancy <i>Andrea Vaccari, <u>Stephen Samouhos</u>, Leon Glicksman and Carlo Ratti</i>	P3-13B Podium
618	Energy efficiency of buildings and their economic appreciation <i><u>Danica Košičanová</u> and Anna Sedláková</i>	P3-13B Poster
134	Study on the quantitative evaluation of underground space's air quality <i><u>YanQiang Di</u> and Yu Zhao</i>	P3-15D Poster
